## Lay Creo-Dipts over siding—*save twice their cost*

Lay Creo-Dipt Stained Shingles right over the siding of your old home. In five years, they will save enough paint to pay for themselves. In ten to twelve years, they will save their cost twice over. Creo-Dipts save fuel, too, by making a house warmer in winter, cooler in summer. And the charm of Creo-Dipt colors instantly makes your house worth more, to yourself or to a buyer.

*If you are building new*, ask your architect, builder or lumber dealer to tell you how genuine Creo-Dipt roof and side-walls can save you money. Building experts know that the name *Creo-Dipt* is given
